Judges Critique

Border Union Ch. Show 16 June 2018

Judge - Fiona C.T.Hartley >

Thank you to the B.U.A.S. for inviting me to judge Dalmatians at their lovely Summer 2018 Ch. Show. Thank you to my efficient stewards Stephen and Margaret and to the exhibitors for showing your lovely Dalmatians for me to judge – I didn't have enough firsts to go round. Thanks also to Alan for your catalogue.

I had only seen a small handful of exhibits before not having judged for 4 and a half years, this probably accounted for the Dalmatian entry being the largest in the Utility Group and the fifth largest overall.

Importantly -for the record I found every exhibit sound when I examined their movement.

All exhibits were clean. A small number of exhibits were a little apprehensive being gone over. Get them out more –you will be rewarded. Size is creeping up again especially in bitches. Bottom Standard size should not be seen as small.

Again and again I found difficulty looking at teeth please do not hold the titbit in your hand at this point as my hands will obscure your titbit and your dog will struggle to see the food. A few dogs needed stronger hindquarters to give them better balanced profile movement. Are they getting enough free running?. The quality in most classes was high and some lovely dogs were down the line or unplaced. From both the dogs and bitches being shown the choice of the class winners, the Challenge Certificate and Reserve CC proves that in this entry there was quality in depth in the breed. A very satisfying conclusion to reach.

Finally you are still showing your dogs strung up, especially on these "cheese wire" show leads- can I convince you to try loose lead showing -it's natural- it's easy- it demonstrates your training and control. We are the breed experts so our show dogs should be trained for exhibition not strangled into submission even if Mr/Mrs/Miss X has done it for years.

Puppy D 6/2 absent –what an exciting Puppy class I hope they all mature well

1. Cobb's Kalokairie Eddie the Eagle – liver spotted- nearly 12 months old-still a long way to go to maturity but an eye-catching dog-liver colour is right –well spotted with good eye colour-good reach of neck-plenty of forechest and depth of brisket –covers the ground well with a long easy stride from those driving hindquarters.
